TECHNICAL NOTE

U.S. DEPARTMENT OF THE INTERIOR – BUREAU OF LAND MANAGEMENT

BACKUP ALARM

by
Lawrence Radosevich
Rock Springs District Office

A simple inexpensive backup alarm is recommended for use on Bureau-owned equipment. This system, easily installed on heavy equipment and fire trucks, involves wiring a horn, flasher, and starter relay into the back-up light circuit. The horn, flasher, #10 wire, and starter relay shown cost about $5.00 (used) and took one hour and a half to install.
